

Ashland County Temporary Emergency Tank Installation Approval

I _____ a Wisconsin licensed Plumber, do hereby acknowledge that I am receiving temporary approval to install a septic tank/holding tank without a soil and site evaluation, or existing system evaluation, and private sewage system plan review due to inclement weather and/or health and/or safety emergency.

Further, I acknowledge that a soil and site evaluation or existing system evaluation, and private sewage plan review will be conducted by the deadline stipulated by the permit issuing agent, or as soon as weather conditions or circumstances permit. If the private sewage system is found to be failing as defined in SPS 383.02(18), Wisconsin Administrative Code. corrective measures will be taken as such that the private sewage system complies with all applicable requirements of chapter SPS 383, Wis. Adm. Code, within 90 days of this agreement.

I further acknowledge that failure to comply by obtaining all necessary permits after the deadline date may result in the issuing of a citation, under the Ashland County Citation Ordinance.
