

The Bowl

No harvest May 1- July 5

This map is not a survey of any actual property it depicts.

Mapped by Tom Ernst 3-19-25

Cutting Restrictions:

- Dry or frozen ground conditions only
- Excessive rutting or excessive damage to residual trees shall result in the suspension of logging.
- The sale must be cut progressively.
- No new woods roads shall be constructed without prior approval of the county forester.
- Care must be taken to preserve survey monuments.
- Care must be taken to not excessively damage existing saplings.
- Utilize all felled trees to a 4" minimum top diameter for pulpwood and 10" for sawlogs.
- Rock or berm roads when sale is complete.
- Retain all snags and den trees that do not pose a safety hazard.

Cutting Specifications:

- Single Tree Selection:** (64 Acres) Cut all trees marked with orange paint.
- Cut all ash, balsam fir and aspen with one or more 100" sticks.
- Cut all ironwood 1" in diameter and larger.
- Sale boundary includes: red paint line, natural boundary and town road
- Do not cut den or snag trees unless deemed a hazard.
- Aspen Coppice-** (16 Acres) Cut all stems greater than 1" in diameter.
- Leave cedar, oak, white pine, hemlock and yellow birch.
- Sale boundary includes red paint line and natural boundary.
- Do not cut den or snag trees unless deemed a hazard.
